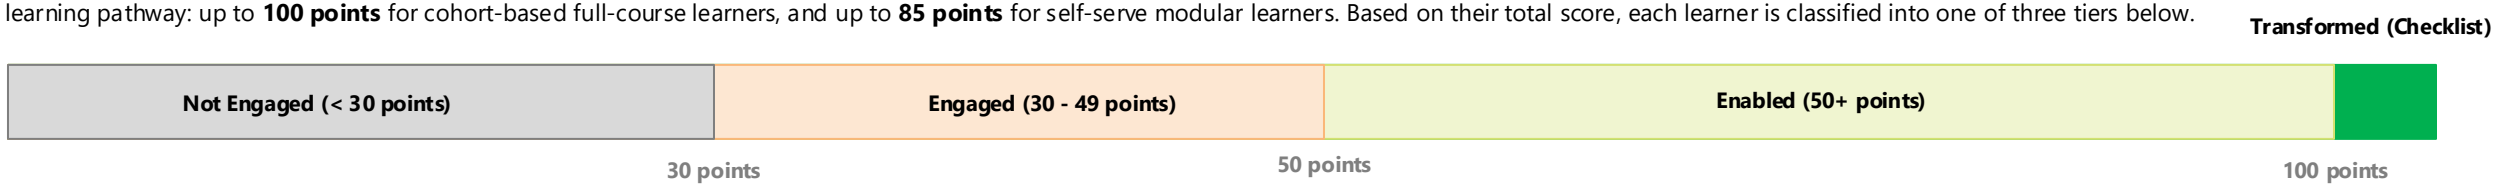
Learner Classification: Scoring Tiers

How Point Scale Works

Learners earn points by completing structured activities on the WSN platform such as video assessments, collaborative reflections, MCQ-based assessments, Interview Prep, and career tools. The maximum score varies by learning pathway: up to **100 points** for cohort-based full-course learners, and up to **85 points** for self-serve modular learners. Based on their total score, each learner is classified into one of three tiers below.



Tier	Score Threshold	Certification Requirement	What It Signals	Who Qualifies
Transformed	Checklist-based (not points)	All 3 mandatory components must be completed and passed: (1) Pre/Post Video >=3/5 (2) >=70% of Collaborate reflections passed, (3) Full Course MCQ (FA + SA) passed (>=70% score in FA and SA individually) *(4) Interview Prep will become part of the criteria (when it is integrated into the course)* Career Advisor/ Job Connect encouraged but not mandatory.	Learner has completed the full structured learning journey and demonstrated minimum viable competency across all core components. Highest tier & certifies meaningful transformation.	**Cohort-based full-course learners only**. Not applicable to self-serve / modular learners as Collaborate is not available in that pathway.
Enabled *(earlier called Partial Transformation)*	50+ points (but not Transformed)	Score >=50 points across any combination of components. Not required to meet the Transformation checklist.	Meaningful capability building with demonstrated platform engagement. Learner is a strong candidate for placement support and further program activation.	Achievable through both pathways. **Cohort-Based:** partial Collaborate + MCQ + other components. **Self-serve:** 10 modules (50 MCQ pts), or 5 modules + Interview Prep + Pitch Trainer + Career Advisor (~60 pts).
Engaged	30–49 points	Score 30–49 points across any combination of components.	Active platform usage beyond registration. Learner is building skills but has not yet reached the Enabled threshold. Primary target tier for self-serve / modular learners, given the absence of Collaborate.	Achievable through both pathways. **Cohort-Based:** partial reflections + MCQ. **Self-serve:** ~5 modules (25 MCQ pts) + Interview Prep (15 pts) = 40 pts.

Score thresholds for Enabled and Engaged are pathway-agnostic. For component-level scoring detail, see Cohort-Based Full-Course Journey (Slide 3) and Non-Cohort / Self-Serve Modular Journey (Slide 4).

Cohort-Based Full-Course Journey: Scoring Model (CY26)

Component	Weight (Max Score)	Unit of Measurement	Scoring Logic (Consistent)	Role in Learning
Pre/Post Video (AI Evaluated)	15	1 submission	15 points if score >= 3/5, else 0. Pass threshold: 3 out of 5.	Individual capability demonstration
Collaborate Activities	Up to 40	Reflections	Points are awarded proportionally based on passing up to 70% of required reflections; full 40 marks are awarded once >=70% of reflections are passed. e.g. In a course with 30 reflections, completing 15 (~ 50%) gives 29 points; >=21 (70%) gives 40 points.	Applied learning, workplace simulation
Full Course MCQ (FA + SA)	Up to 25	Course assessments	Points awarded based on attaining >=70% in each assessment. Total FA score (15) is equally distributed across all FAs; points are awarded per FA passed. SA carries 10 points and is awarded only if >=70% is achieved. Total capped at 25. e.g. if there are 5 FAs and the learner passes 4 (>=70% score), they earn 12 points; if they also pass SA (>=70%), they earn 10 more -> total 22 points	Structured pathway competency validation
Interview Preparation	15	Question-based journey	1.5 points per passed question (max 10); total capped at 15. Scored based on the longest single journey taken; multiple short journeys are not cumulative.	Job readiness and interview capability
Career Advisor*	5	Completion	5 points on completion (binary); where completion requires: (1) completing the Passions (2) completing the Questionnaire, and (2) favoriting one or more roles. *Interchangeable with Job Profile/ Job Connect; max 5 pts regardless of both being completed*	Job alignment and decision support
(OR) **Job Profile / Jobs Connect***	5	Profile completion	5 points on completion (binary); where completion is defined as fully completing the Jobs Connect Job Profile. *Interchangeable with Career Advisor; max 5 pts regardless of whether both are completed*	Career enablement and employability signal

Learner Classification Thresholds: Enabled (50+, not Transformed), Engaged (30 – 49)

Key Points:

1. **Score Normalisation:** Total maximum score is normalised to 100 across all components
2. **Mutually Exclusive Pathways:** Full course MCQ is considered mutually exclusive pathway, and capped at 25
3. **Pass Based Scoring:** Learners earn points only when they meet defined minimum competency thresholds (not just completion)
4. **Collaborate Threshold Logic:** Full points (40) are awarded once >=70% reflections are passed; below the threshold, marks are awarded proportionately based on pass rate

* Career Advisor and Job Connect serve similar purpose (career guidance and job aspiration support) and are treated interchangeably for scoring.

Non-Cohort / Self-Serve Modular Journey: Scoring Model (CY26)

Component	Weight (Max Score)	Unit of Measurement	Scoring Logic	Role in Learning
Pre/Post Video (Pitch Trainer)	15	1 submission	15 points if score >= 3/5, else 0. Pitch Trainer is the self-serve equivalent of the Post Video assessment.	Baseline capability signal assesses improvement pre vs. post learning
Modular MCQ (Self-Serve)	Up to 50	Per module (max 10 modules @ 5 pts each)	5 points per passed module (capped at 50 for self-serve pathway, vs. 25 in the cohort model).	Primary scoring engine for self-serve learners. Higher weight reflects absence of Collaborate. Will be recalibrated as GenAI assessments are introduced.
Interview Preparation	15	Question-based journey	1.5 points per passed question (max 10); total capped at 15. Scored on longest single journey taken not cumulative across sessions.	Job readiness signal. Self-serve learners rely heavily on this to reach Enabled state.
Career Advisor* (OR)	5	Completion	5 points on completion (binary); where completion requires: (1) completing the Passions (2) completing the Questionnaire, and (2) favoriting one or more roles. *Interchangeable with Job Profile/ Job Connect; max 5 pts regardless of both being completed*	Job alignment and decision support
Job Profile / Jobs Connect*	5	Profile completion	5 points on completion (binary); where completion is defined as fully completing the Jobs Connect Job Profile. *Interchangeable with Career Advisor; max 5 pts regardless of whether both are completed*	Career enablement and employability signal

Learner Classification Thresholds: Enabled (>= 50, not Transformed), Engaged (30 – 49)

Key Points:

1. **Score Normalisation:** Total maximum score is normalised to 85 across all components
2. **Mutually Exclusive Pathways:** Modular/ Self-Serve MCQ is considered mutually exclusive pathway, and capped at 50 currently
3. **Pass Based Scoring:** Learners earn points only when they meet defined minimum competency thresholds (not just completion)

* Career Advisor and Job Connect serve similar purpose (career guidance and job aspiration support) and are treated interchangeably for scoring.

Core Metrics

(O) – Outcomes, (O/P) - Output, (I/P) – Inputs, (A) – Attribution

Metrics	Definition (What?)	Triggers (When?)...	Method (How?)	Quality Assurance
Attributable Incremental Placements **(Hybrid Transformation Pathway) (O)**	In the current calendar year, estimated no: of transformed learners from current or previous enrolment years, securing placements attributable to WF's skilling initiatives, measured as incremental placement that would not have occurred in the absence of the program. This includes: • **Gold Standard:** Statistically validated A/B comparisons between learner batches and matched non-course learner batches, where control data is available. • **Silver Standard:** Conservative attribution based on self-reported learner attribution, where learners who attribute ≥50% of their placement success to the WF's skilling offerings contribute proportionately to incremental impact.	• **Baseline measurement** begins prior to cohort onboarding; retrospective baselines are acceptable for validated cohorts where prospective baselines are unavailable. • **Incremental placements** are credited in the year the placement occurs, following placement confirmation and attribution assessment.	**Gold Standard:** • Creation of matched control groups (non-course learners) based on domain, location, graduation timeline, and partner characteristics. • Measurement of differences in placement rates, time-to-placement, and salary improvements between treatment and control groups. **Silver Standard:** • Structured placement & attribution surveys administered to Transformed learners who are eligible for placements. • A statistical sample of (90% +/-5%) of eligible enabled learners is validated through independent surveys and results are extrapolated to the eligible enabled placement learner pool • Learner's attributing >= 50% of their placement success to the WF's skilling offerings are conservatively counted as contributing 50% of a placement toward incremental impact.	• Impact Team will validate of control group comparability and sample sufficiency for Gold Standard studies. • Explicit exclusion of *Enabled* and *Engaged* learners from Gold Standard attribution. • Documentation and version control of all attribution assumptions and thresholds.
Attributable Incremental Placements **(Enablement Based Pathway) (O)**	In the current calendar year, estimated no: of enabled learners from current year enrolments, securing placements attributable to WF's skilling initiatives, estimated using Silver Standard attribution This includes: • **Silver Standard:** Conservative attribution based on self-reported learner attribution, where learners who attribute ≥50% of their placement success to the WF's skilling offering contribute proportionately to incremental impact.	After the students' are classified as enabled, with a placement lead time of 90 days across all partner types	**Silver Standard:** • Structured placement & attribution surveys administered to enabled learners who eligible for placements • A statistical sample of (90% +/-5%) of eligible enabled learners is validated through independent surveys and results are extrapolated to the eligible enabled placement learner pool • Learner's attributing >=50% of their placement success to the WF's skilling program are conservatively counted as contributing 50% of a placement toward incremental impact.	• Impact Team will validate the placements via independent surveys • The placement percentage will be applied to eligible for placements learner pool to get the extrapolated placement nos. • Further, those attributing >=50% of their placement success will be conservatively counted as contributing to 50% of placements towards incremental placement. • Explicit exclusion of *Engaged* learners from Silver Standard attribution.
Attributable Incremental Placements ***(Engagement Based Pathway) (O)*** ***(Not considered in KPI achievement calculations, will be collected and reported separately)***	*In the current calendar year, estimated no: of engaged learners from current year enrolments, securing placements attributable to WF's skilling initiatives, estimated using Silver Standard attribution* *This includes:* • ***Silver Standard:*** *Conservative attribution based on self-reported learner attribution, where learners who attribute ≥50% of their placement success to the WF's skilling offering contribute proportionately to incremental impact.*	*When placement is confirmed during CY26*	***Silver Standard:*** *Learner self-reporting or partner confirmations*	• *Impact Team will validate a statistical sample of (90% +/-5%) of placed learners (engaged) through independent surveys and results will be extrapolated to the placed learner (engaged) pool* • *Further, those attributing >=50% of their placement success will be conservatively counted as contributing to 50% of placements towards incremental placement.*

For all Partial Transformation and its accompanying downstream KPIs (Placement & Incremental Placements), only learners classified as **Enabled** will be considered.

Core Metrics

(O) – Outcomes, (O/P) - Output, (I/P) – Inputs, (A) – Attribution

Metrics	Definition (What?)	Triggers (When?)...	Method (How?)	Quality Assurance
Attributable Incremental Placements (Offline Pathway) (O) ***(Not considered in KPI achievement calculations, will be collected and reported separately)***	*In the current calendar year, estimated no: of learners placed through WF-supported offline placement interventions e.g. job fairs, employer connects etc. without platform registration or engagement.* *This includes:* - ***Silver Standard:*** *Conservative attribution based on self-reported learner attribution, where learners who attribute ≥50% of their placement success to the WF's skilling offering contribute proportionately to incremental impact.*	*GTM teams submit the necessary placement data at the completion of the offline event.*	*GTM teams should provide the following details:* - *Event Name* - *Event Type (Job Fair, Employer Connect, Campus Drive etc.)* - *Date & Location* - *Partner Institute* - *Learner Data incl. Name, Phone No, Course, Graduation Year, Exposure to WF programs etc.* - *Employer & Job Details incl. Role, Joining Date, Compensation etc.*	• *Impact Team will validate a statistical sample of (90% +/-5%) of placed learners (offline) through independent surveys and results will be extrapolated to the placed learner (offline) pool* • *Further, those attributing >=50% of their placement success will be conservatively counted as contributing to 50% of placements towards incremental placement.*
Total Placements (Hybrid Transformation Pathway) (O)	In the current calendar year, the estimated no: of transformed learners from current or previous enrolment years, who are placed (secure a job), irrespective of the attribution	After the students' are classified as transformed, with a placement lead time of 90 days across all partner types	A statistical sample of (90% +/-5%) of eligible transformed learners is validated through independent surveys and results are extrapolated to the eligible transformed placement learner pool	- Impact Team will validate the placements via independent surveys - The placement percentage will be applied to eligible for placements learner pool to get the extrapolated placement nos.
Total Placements (Enablement Based Pathway) (O)	In the current calendar year, the estimated no: of enabled learners from current year enrolments, who are placed (secure a job), irrespective of the attribution	After the students' are classified as enabled, with a placement lead time of 90 days across all partner types	A statistical sample of (90% +/-5%) of eligible enabled learners is validated through independent surveys and results are extrapolated to the eligible enabled placement learner pool	- Impact Team will validate the placements via independent surveys - The placement percentage will be applied to eligible for placements learner pool to get the extrapolated placement nos.
Total Placements (Engagement Based Pathway) (O) ***(Not considered in KPI achievement calculations, will be collected and reported separately)***	*In the current calendar year, the estimated no: of engaged learners from current year enrolments, who are placed (secure a job), irrespective of the attribution*	*When placement is confirmed during CY26*	*Learner self-reporting or partner confirmations*	• *Impact Team will validate a statistical sample of (90% +/-5%) of placed learners (engaged) through independent surveys and results will be extrapolated to the placed learner (engaged) pool*

For all Partial Transformation and its accompanying downstream KPIs (Placement & Incremental Placements), only learners classified as **Enabled** will be considered.

Core Metrics

(O) – Outcomes, (O/P) - Output, (I/P) – Inputs, (A) – Attribution

Metrics	Definition (What?)	Triggers (When?)...	Method (How?)	Quality Assurance
Total Placements (Offline Pathway) (O) ***(Not considered in KPI achievement calculations, will be collected and reported separately)***	*In the current calendar year, estimated no: of learners placed through WF-supported offline placement interventions e.g. job fairs, employer connects etc. without platform registration or engagement.*	*GTM teams submit the necessary placement data at the completion of the offline event.*	*GTM teams should provide the following details:* - *Event Name* - *Event Type (Job Fair, Employer Connect, Campus Drive etc.)* - *Date & Location* - *Partner Institute* - *Learner Data incl. Name, Phone No, Course, Graduation Year, Exposure to WF programs etc.* - *Employer & Job Details incl. Role, Joining Date, Compensation etc.*	• *Impact Team will validate a statistical sample of (90% +/-5%) of placed learners (offline) through independent surveys and results will be extrapolated to the placed learner (offline) pool*
Learners Transformed (Hybrid Transformation Pathway) (O/P)	In the current calendar year, learners who are enrolled through Hybrid pathway, and are successfully assessed, and meet defined quality and assessment standards*, indicating high-confidence employability readiness.	All 3 mandatory components are completed and passed: (1) Pre/Post Video >=3/5 (2) >=70% of Collaborate reflections passed, (3) Full Course MCQ (FA + SA) passed (>=70% score in FA and SA individually) *Interview Prep will become part of the criteria (when it is integrated into the course)*	Platform analytics	- Checklist defined centrally and frozen for CY26 - Applicable only to learners enrolled in batch-mode full course journeys
Learners Enabled (Enablement Based Pathway) (O/P)	In the current calendar year, learners who are enrolled through Hybrid or Self-Serve pathway, and meet defined enablement thresholds*, reflecting exposure to employability capabilities but not full transformation. Includes Self-Serve learners and Hybrid learners who do not complete full transformation.	Score >=50 points across any combination of components. Not required to meet the Transformation checklist.	Platform analytics	- Thresholds defined centrally and frozen for CY26 - Exclusion of learners classified as Transformed
Learners Engaged (Engagement Based Pathway) (O/P) ***(Not considered in KPI achievement calculations, will be collected and reported separately)***	*In the current calendar year, learners who are enrolled through Hybrid or Self-Serve pathway, and use one or more light-touch offerings (e.g., job connect, interview prep, tools) but do not meet enablement thresholds* or complete Hybrid transformation.*	*Score 30–49 points across any combination of components*	*Platform analytics*	- *Thresholds defined centrally and frozen for CY26* - *Mutually exclusive from Transformed and Enabled learners*

For all Partial Transformation and its accompanying downstream KPIs (Placement & Incremental Placements), only learners classified as **Enabled** will be considered.

* See **Learning Classification: Scoring Tiers** for detailed Scoring thresholds

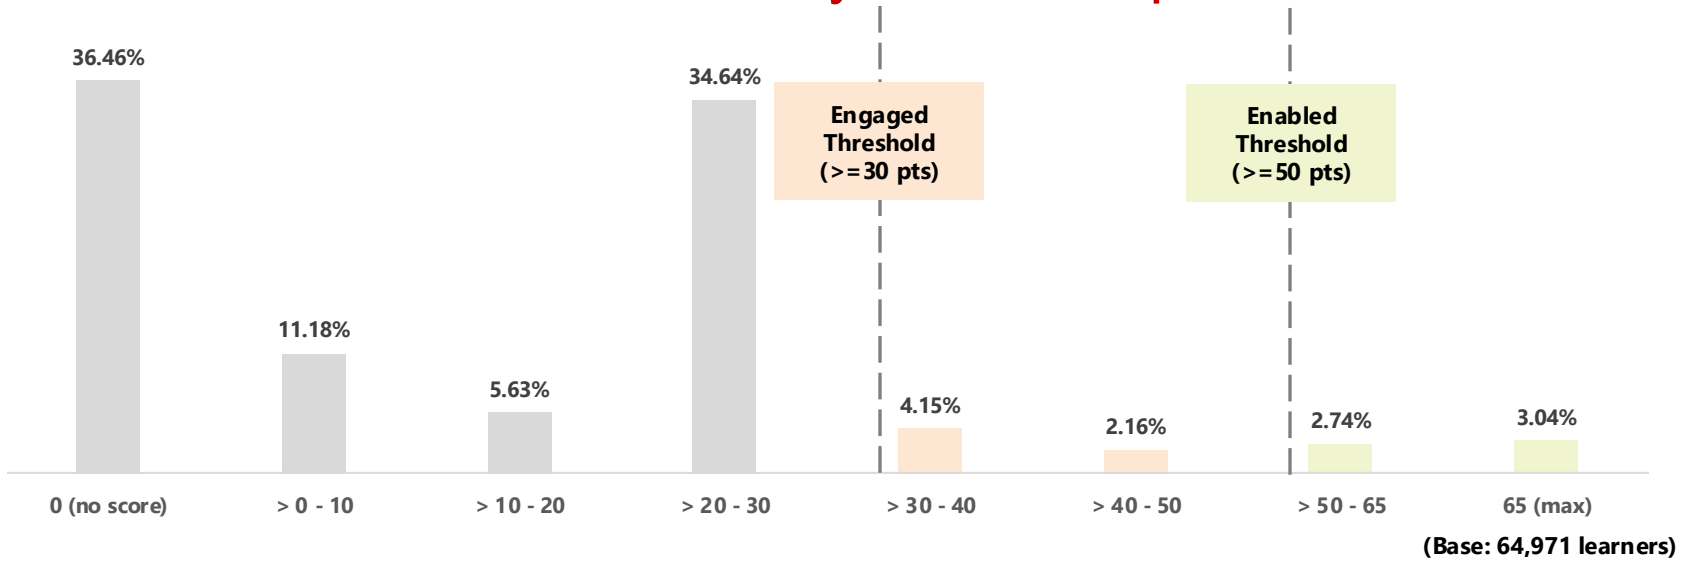
Core Metrics

(O) – Outcomes, (O/P) - Output, (I/P) – Inputs, (A) – Attribution

Metrics	Definition (What?)	Triggers (When?)...	Method (How?)	Quality Assurance
Learners Enrolled (Hybrid Transformation Pathway) (I/P)	In current calendar year, no: of learners enrolled into the flagship hybrid skilling programs, with structured delivery and formal assessments	When a learner signs up through partner institutes on the platform	System	
Learners Enrolled (Self-Serve Pathway) (I/P)	In current calendar year, no: of learners who register on the platform and access any offering, irrespective of depth of engagement	On platform registration	System	
Ecosystem	A defined local geography (district, cluster of districts or industrial corridor) within which Skilling deploys a coordinated portfolio of structured course and non-course offerings to enable job fulfilment (placements)			

Thank You!

Cohort-Based Full-Course Journey: CY25 Snapshot



CY25 Score Snapshot

87.9%
Not Engaged
Score: 0-30 | 22,495 learners

6.3%
Engaged
Score: 30 – 49 | 4,100 learners

5.8%
Enabled
Score: 50+ | 3,758 learners

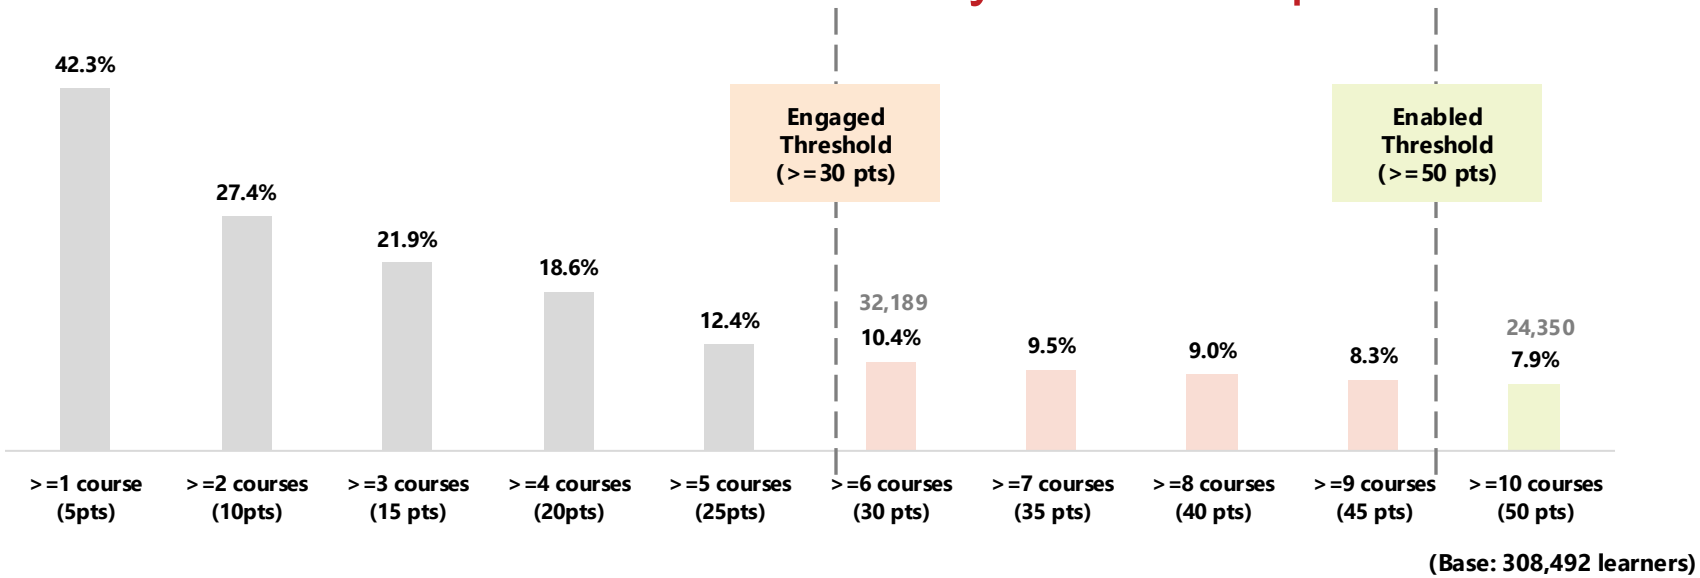
Key insight: 34.64% of learners sit in the >20 – 30 bucket. (Score includes FA, SA and Collaborate Completions)

Adding Interview Prep (+15 pts) moves this entire group into Engaged category. Separately, 4,100 learners need (+15 pts) to move to Enabled category.

Scenario Analysis - Impact of Adding Support Activities on Tier Classification (Base: 64,971 learners)

Learner Group	Baseline	Activity Added	Resulting Tier	50% Adoption	100% Adoption
Near Threshold 22,495 learners (34.6%)	> 20 – 30	+ Pitch Trainer or Interview Prep (+15 pts)	**Engaged** 35 - 45 pts total	**+11,248** 17.3% of 65K	**+22,495** 34.6% of 65K
	>20 – 30	**+ Pitch Trainer + Interview Prep (+30 pts)**	**Enabled** 50 - 60 pts total	**+11,248** 17.3% of 65K	**+22,495** 34.6% of 65K
Engaged 4,100 learners (6.3%)	> 30 – 49	+ Pitch Trainer or Interview Prep (+15 pts)	**Enabled** 45 – 65 pts total	**+2,050** 3.2% of 65K	**+4,100** 6.3% of 65K
	> 30 – 49	**+ Pitch Trainer + Interview Prep (+30 pts)**	**Enabled** 60 - 80 pts total	**+2,050** 3.2% of 65K	**+7,839** 6.3% of 65K

Non-Cohort / Self-Serve Modular Journey: CY25 Snapshot



CY25 Score Snapshot

89.6%
Not Engaged
Score: 0-30 | 276,303 learners

2.5%
Engaged
Score: 30 - 50 | 7,839 learners

7.9%
Enabled
Score: 50+ pts | 24,350 learners

Key insight: Among active learners, MCQ alone can reach both Engaged (6 modules+) and Enabled (10 modules+).

Interview Prep or Pitch Trainer is the highest leverage unlock. 3 modules + Interview/ Pitch -> 30 pts (Engaged)

Scenario Analysis - Impact of Adding Support Activities on Tier Classification (Base: 308,492 learners)

Learner Group	Baseline	Activity Added	Resulting Tier	50% Adoption	100% Adoption
Not Engaged 276,303 learners (89.6%)	3 modules (15 pts)	+ Pitch Trainer or Interview Prep (+15 pts)	**Engaged** 30 pts total	**+138,152** 44.8% of 308K	**+276,303** 89.6% of 308K
	3 modules (15 pts)	**+ Pitch Trainer + Interview Prep (+30 pts)**	**Engaged** 45 pts total	**+138,152** 44.8% of 308K	**+276,303** 89.6% of 308K
Engaged 7,839 learners (2.5%)	6 modules (30 pts)	+ Pitch Trainer or Interview Prep (+15 pts)	Stays Engaged 45 pts — below Enabled (50)	No tier upgrade	No tier upgrade
	6 modules (30 pts)	**+ Pitch Trainer + Interview Prep (+30 pts)**	**Enabled** 60 pts total	**+3,920** 1.3% of 308K	**+7,839** 2.5% of 308K
